Refacing has become an incredibly popular way to update your old tired kitchen or bathroom at a fraction of the cost to replacing. Installation can generally be done in a matter of days depending on the complexity of the reface. Before making a final decision on whether you should reface versus replace you need to have some answers to some questions:

 **Are your boxes in good conditions**

 **Are you happy with the overall layout of your kitchen**

So you have decided that re-facing is the option you would like to pursue. So the next set of questions that need to be answered is what style of cabinets you have currently.

+ Face Frame cabinets are when the hinge is visible when the door is closed
You can use a conversion face frame hinge on a face frame cabinet to create the look of a European cabinet.

+ European is when the hinge is hidden when the door is close

Now we need to determine the type of door style you want to go with.

- + **Vinyl** also known as a **Thermofoil** door is a MDF door with vinyl heat sealed over. It comes in four styles : Slab, Raised Panel Square Corner, Raised Panel Round Corner and a Flat Panel. There are 24 different stock colors to choose from solid color to wood grain.
- + **MDF Painted Doors** come in all of the same profiles as the Thermofoil door but have a painted finish on them.
- + **CVCD Wood Doors** come in a wide variety of species (Maple, Alder, Oak, Cherry, Walnut, Paint Grade Maple), in Slab, Flat Panel and Raised Panel and a wide variety of inside and outside profiles, they can be finished with a clear lacquer, stain and lacquer or paint.
- + **Wood Mitre Doors** are made using a mitre cut in the corner and come in various species (Maple, Alder, Cherry, Walnut, Paint Grade Maple) and come Flat Panel and Raised Panel with a good selection door styles to choose from, they can be finished with a clear lacquer, stain and lacquer or paint.

Our Peel and Stick product is a custom made product that has been designed specifically for the cabinet re-face. You do not need to use any other adhesive to install the peel and stick. Once the product is applied to the cabinet box it will not lift or peel.

- + Vinyl peel and stick is made using the same vinyl that is on your thermofoil doors and is available in all 24 color choices.**
- + Real wood peel and stick is made using a paperback veneer and can be stained and lacquered to match your wood doors.**
